MVP
TECH

COMPANY Profile

SECURITY & TECHNOLOGY

Systems Contracting

MVP Tech, established in 2003, is a specialized security & technology systems integrator representing leading products from various U.S, European, South African and Australian product manufacturers.

Some of these products include high-end IP Camera Systems, ANPR (Automatic Number Plate Recognition), Video Analytics, Radar Systems, Border Control Technologies, real-time IP based Access Control solutions, Explosive Detection Equipment, Blast Proof Protection, and many other systems.

MVP Tech is fully licensed to operate within the security fields in its present markets, and has executed and maintains multiple projects globally to the same stringent high level standards.

Our Mission:

Remaining at the edge of INNOVATION

MVP Tech prides itself in selecting unique technologies with few or no alternatives in the market combining best of breed products with the most cost effective designs. We combine our international team's engineering experience with local legal requirements and client's operational needs to deploy tailor-made solutions.

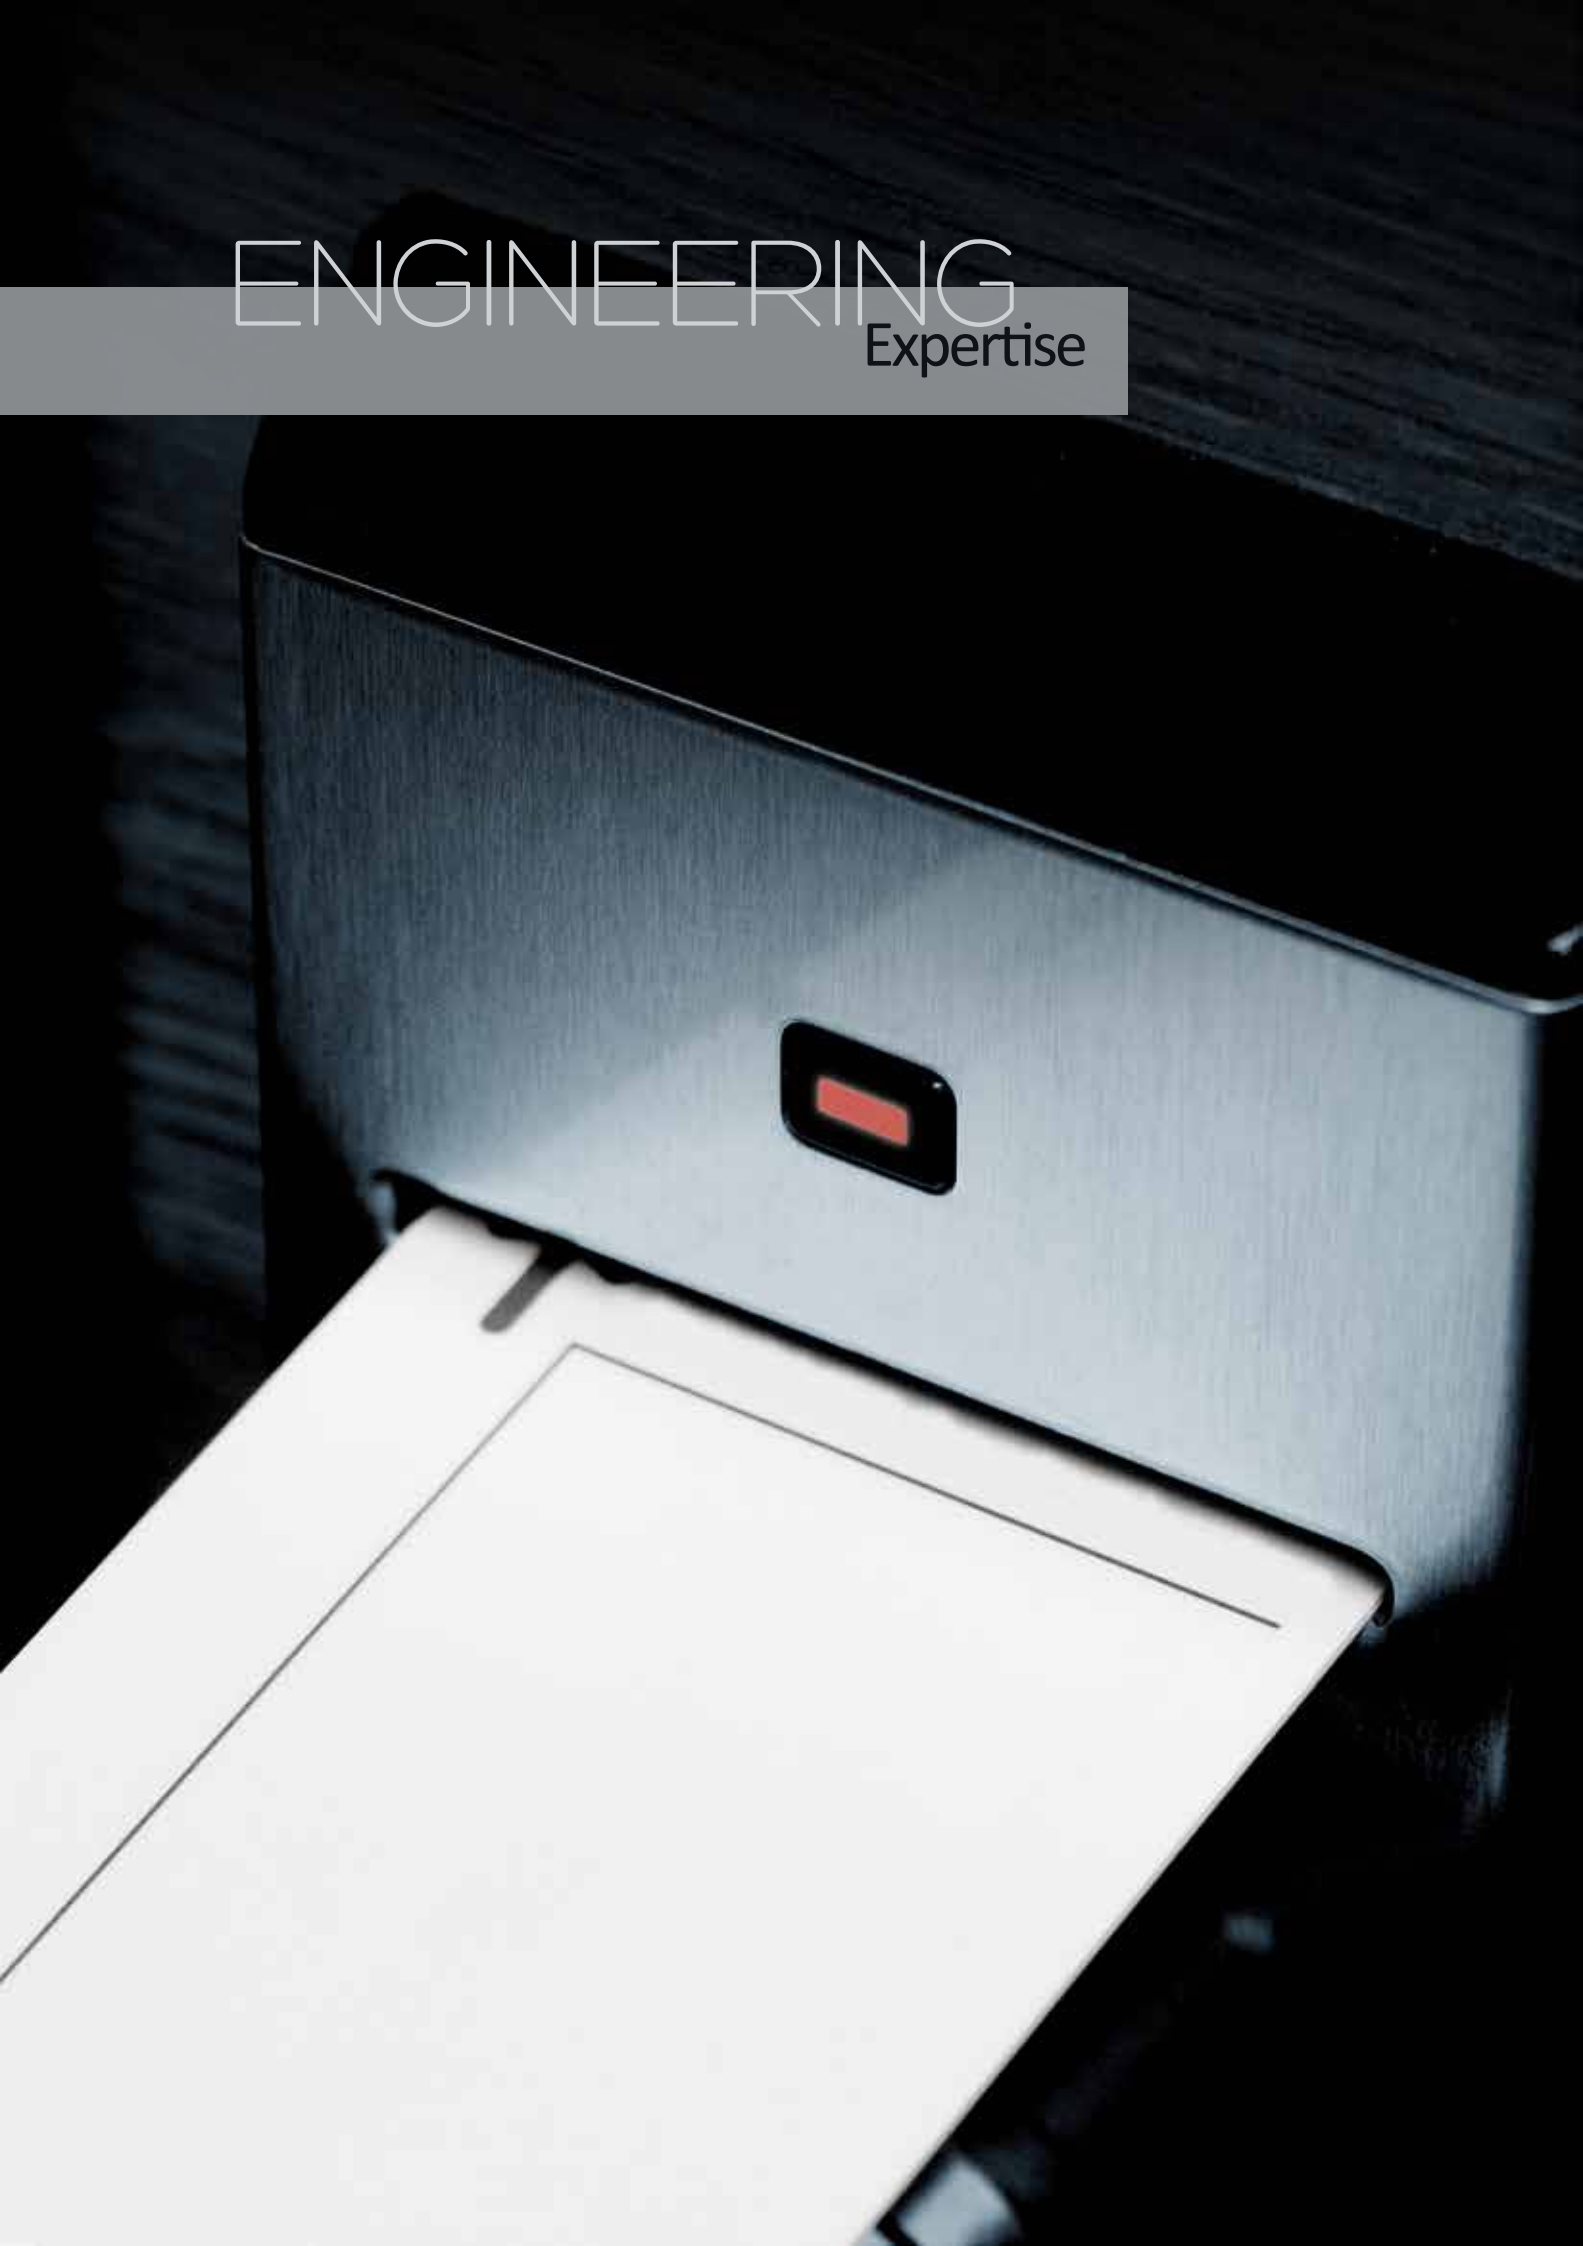
In an ever increasing competitive world, we strive to stand apart by taking on challenges that most companies shy away from. Our corporate philosophy is customized quality not easily available quantity.

Our Vision:

Continued COMMITMENT

Our vision is reflected through a continued commitment to execute diverse and highly complex projects on time, whilst delivering top products within budget, and offering unparalleled manpower expertise for mission critical assignments.

ENGINEERING
Expertise



From inception the philosophy has been to focus on building engineering expertise. A commitment to grow our operations and customer support aspects while strengthening the company´s solid know-how.

Our engineering capabilities include all aspects of design, integration, installation and maintenance, and have allowed us to expand into the area of turn-key technology integration products, providing a single point of contact to our clients. We do not make sales promises we cannot keep but present with the technical facts, because what the industry and our clients demand from us is to provide them with a level of comfort and trust that can only come from hearing a straight answer.

OUR GLOBAL ENGINEERING TEAM

- Site Project Managers
- Jr. Project Managers
- Project Engineers - Electrical, Electronics, Networking & Software
- Pre-Sales Engineers
- Fiber Specialists
- Auto Cad Engineers
- Technicians (Electrical & Civil)
- Engineering Support Specialists
- Maintenance Engineers
- Quality Control Engineers

MVP Tech Premium Maintenance - Support 24/7

Challenges and threats with Security and IT Technology Systems can have a powerful impact on your business. We bring you peace of mind by ensuring continuous technical support coverage on any level of involvement. With the advice of our expert team of engineers, always up-to-date with the latest developments in the products life cycles, trained to troubleshoot multiple systems simultaneously.

Our support specialists take into consideration factors such as age, level of usage, existing condition and operating environment of your equipment before recommending the program that best suits your specific needs, to provide you with maintenance solutions uniquely tailored to your demands and budget.

Benefit now from our extended Premium Maintenance programs:

- Our Engineers and expert technicians will ensure that your installation is up-to-date and that it complies with the local requirements and regulations.
- Including planned maintenance visits to prevent risk of sudden malfunction and costly repairs in the future.
- We can also provide you with a 24h hotline service to attend urgent requests.
- Contract clients are always prioritized in terms of faster response, preferential rates and special price for spare parts.
- Receive regular up to date reports on maintenance activities.

PASSION for Excellence

Curiosity, persistence and knowledge are products of excellence found in our dedicated team. Solutions to specific requirements are not always there, passion and determination creates them.

MVP Tech was founded on the idea that the region requires competent engineering driven security and technology contractors. We believe the best sales people we can have are our technical team. Their ability to advise, design, execute and support our clients is the best sales tool we have. We have grown through the establishment of strong and high level partnerships with our global leading vendors, customers and employees, based on mutual respect, responsibility and clear expectations, always enveloped in the highest technical standards.

Our loyalty never waivers.

Custom Solutions

Along with our IP based expertise and our diverse engineering skill set background we have been brought into many projects to provide total solutions.

Integration is a complex process whereby different systems are made to communicate and interact with each other to achieve a specific purpose.

It can be anything, from interfacing your CCTV with access control, your radar systems with cameras, to more complex applications such as Point of Sale transactions associated with video evidence.

We specialize in customizing solutions simply because the bulk of our manpower resources goes into technical staff, without having to rely on unqualified subcontractors.

Key Industries

MVP Tech currently serves several business areas in demand for sophisticated systems regionally and internationally. Some of these areas include servicing capabilities for the following:

GOVERNMENT & CRITICAL INFRASTRUCTURE • DEFENSE, MILITARY & ENFORCEMENT AGENCIES • AIRPORTS
OIL & GAS • RESIDENTIAL • CORPORATE • LUXURY HOSPITALITY • RETAIL • LUXURY RETAIL • BANKING

SERVICES
& Products

“We love everything IP”

The core majority of our products have been IP (Internet Protocol) based and will continue to be so in the future. MVP Tech was installing IP based camera solutions as far back as 2003 when analog systems ruled the security world.

Security Systems

- IP Surveillance Cameras
- Long Range Thermal Cameras & Intrusion Detection Radar Systems
- Video Analytics (Non-motion detection & motion detection)
- Xray Scanners, Metal Detectors Inspection Kits, Perimeter & Buried Intrusion Detection
- Explosives Detection / Prevention Systems
- IP Audio / Video Intercom
- Access Control, Telephone Entry Systems & Time-Attendance
- Car Park Management Systems, Gate Barriers & Signage, Traffic Lights & Controllers
- Automatic Number Plate Recognition (ANPR)
- Under Vehicle Scanners
- Intelligence Gathering Systems

AV & Building Automation

- Rear-Projection Customized Screens any size up to 140” (black & mirrored)
- Indoor / Outdoor Advertising Screens (any shape - design)
- Sound Systems
- Indoor / Outdoor Variable Message Sign Boards
- Room Management Systems
- IP TV
- SMATV

IT & Structured Cabling

- Multi-Suite Networking
- Wireless Internet Solutions
- Telephony
- Structured Cabling & Fiber Optics
- Customized Software Solutions
- Hotel Management Systems
- Automated Internet Billing Systems
- Wireless Long Range Solutions
- Storage Systems
- VSAT

Corporate & Residential

A major value add to any project is the security factor. From security automation to high tech designs with several levels of protection, our integrated seamless solutions ensure a pleasant environment where people, property, and data are safe and secured.

Retail & Luxury Retail

A serious security breach can significantly damage any brand´s name. Petty theft, shoplifting and stock going missing are also common concerns that can be significantly reduced with MVP Tech´s intelligent surveillance solutions, that include integration between camera systems, inventory management search queries and point of sale transactions.

Luxury Hospitality

At MVP Tech we understand that hotels demand the latest integrated systems with the highest standards. Projecting a safe but non-intrusive ambiance is also critical to hotel culture. We have many years of experience in the hospitality industry and we are focused internationally across several countries, catering to major well-known local and franchised hospitality brands.

FIND US
International Offices

MVP Tech is one of the most prestigious Security and Technology companies in the Middle East region, with Head Offices in Dubai, U.A.E., and regional offices in Abu Dhabi, Qatar, Iraq and Brazil.
